Petrol fire pumps - single and twin impeller

Our petrol fire pumps are available as both single and twin impeller models. Both models are powered by the Villiers 6.5hp petrol engine. A full roll frame is standard equipment. The pumps are available with Viton seals if required.

Diesel fire pumps - single and twin impeller

Our diesel fire pumps are available as both single and twin impeller models and we also have a special single impeller model which produces both high pressure and high volume output.

Diesel 4 inch pumps

Our 4 inch diesel pumps are pre-fitted in frames and fitted with long range fuel tanks and keyless ignition electric start with recoil backup.

Petrol lightweight 4 stroke pump

This 4 stroke high speed petrol pump is ideal as a mop up / fire fighting pump or for water transfer, irrigation and spraying. Weighing only 7.2 kg and running smoothly and silently thanks to its 1.1 kw engine, it is designed to be very portable. It is robust and capable of pumping up to 5000 litres of water an hour.

Diesel engine pressure washers

Powered by reliable Villiers engines, our diesel pressure washers are ideal for a number of heavyweight cleaning jobs.

Recoil and electric start heavy duty generator

Built to Villiers specifications, our generators are sturdy, lightweight, portable and built to last, providing our customers with the power needed for operating a range of electronic tools and equipment.

Petrol engines

Our engines have gained a reputation throughout the industry for being high quality but affordable with great reliability, and are used by a number of original equipment manufacturers.

Diesel engines

Our engines have gained a reputation throughout the industry for being high quality but affordable with great reliability, and are used by a number of original equipment manufacturers.

Petrol low pressure high volume pumps

These hard-working petrol pumps are very popular in the construction, agricultural, hire and fire protection industries. They are most suited for moving water or fuel quickly and can be truck mounted.

Diesel low pressure high volume pumps

These hard-working diesel pumps are very popular in the construction, agricultural, hire and fire protection industries. They are most suited for moving water or fuel quickly and can be truck mounted.

Diesel high pressure high volume pumps

With a long range fuel tank and 4 hours running time, these diesel pumps are great for use in the construction, agricultural, hire and fire protection industry and anywhere there is a need to move a high volume of water or other liquids quickly and efficiently.

Petrol poly pumps

The 2" and 3" Poly Pumps are manufactured from glass filled polyester & are of very strong construction. The pumps are powered by the reliable 6.5hp Villiers engine. The poly pumps are versatile and are suitable for many applications, particularly chemical spraying.

Petrol engine pressure washers

Powered by reliable Villiers engines, our petrol pressure washers are ideal for a number of heavyweight cleaning jobs.

Plate compactor

The Villiers plate compactor is well suited for use on bitumen, landscaping, earthworks, brick and concrete paving, and for road maintenance. The compactor is used by many hire companies and contractors.

2 cylinder petrol engine

Our engines have gained a reputation throughout the industry for being high quality but affordable with great reliability, and are used by a number of original equipment manufacturers.

Wisconsin engines

We are proud to be the Australian and Asia Pacific distributor for Wisconsin engines.

Wisconsin engines are designed to meet the most rigorous demands placed upon them. They excel in severe duty, high torque applications.
